But in order to receive TRIPLE VOTES FOR SUBSCRIPTIONS so placed in the mail, the postoffice mark must bear witness that such mail was placed in the postoffice on or before Saturday, February the 17th. +++++++++++

The last day of the final spurt for TRIPLE VOTES is here, and excite ment at the point of fever heat will be in full blast before sundown to-

In order to give the candidates all the time that the contest department can under the rules of the advertis ed time for closing the TRIPLE VOTE OFFER, the office will re-main open until 8 o'clock tonight to receive subscriptions.

The candidates will put everything aside today that is immaterial to the ultimate success of their campaign in the final search for new subscriptions and TRIPLE VOTES. New one, two and five year subscriptions tonight will mean three times as many votes as they would the last day of the great \$1800.00 contest.

It is quite natural that the public will have its day of excitement, but its day of excitement will be your day of anxiety. It will be the day the final day of the contest, Saturday, March the 16th. The judges will be reeling off the ballots for the THE \$80.00 DIAMOND RING last count to determine the winners of the seven-weeks hard fought bat-

Get rid of that anxiety in the tutest that will in the least compare with the TRIPLE VOTE OFFER that has been in effect during the past fourteen days. Drill yourself into the feeling today, that TODAY is the car for them, AND FOR EVERY DAY OF HUSTLING THAT YOU DO NOW they will have to do three at the last, considering that votes allowed at the last on new one, two and five year subscriptions will de-preciate just two-thirds. Every new yearly subscription that you bring in today counts 9000 votes for you; a two year subscription, 24,000 votes. and a five year subscription 75,000 votes. During the last week of this contest you will be given 3000, 8000

ROOSEVELT & JOHNSON

MOST VALIANT LEADERS FOR TWENTIETH CENTURY CRUSADE

By J. P. BAUMGARTNER, Editor Santa Ana Daily Register.

Hurrah for Roosevelt and John-There is brains and blood in that ticket, big brains and rich red blood. It will sweep the coun try. Democrats and Socialists alike will support it. The Register has been hoping and praying for this good hour and has prepared its readers for its coming, confident that it would come. Roosevelt and Johnson are the most valiant and capable leaders that could have been chosen for the twentieth century crusade

editors and is here reproduced as in- mocracy which we take for granted.

Last week we told you about the fine gravity water supply for the YU-CAIPA Valley Big Red Apple land. Now listen to a few words about the soil. In our office hangs the government's soil map of San Bernardino county showing the soil in the Yucaipa Valley to be the famous Placentia sandy loam, some-times called decomposed granite. It has been pronounced by experts the best apple soil in the world. But the fruit grown there now tells its own story for the soil. The land has been under cultivation for 30 years. No stones, cactus or brush to be cleared away. It is smooth and level, ready to plant. The soil is the same over the wide expanse of the valley and from 20 to 30 feet deep. Five hundred dollars secures ten acres of this land and water. and the crops that may be grown between the trees will make the money to meet the easy payments on the balance of the price. It adjoins the fine city of Redlands on the east, but lies much higher, which gives it a cool climate in summer. It is never warmer than 95 in summer or cooler than 25 degrees in winter. We make the round trip in one day. Go with us to see the valley. We are ready to

Poll Tax Issue Has Two Sides J. D. Sweeney of Red Bluff, a ran school man of Northern Callfornia, is calling attention to the fact that there are two sides to the matter of abolishing the poll tax. The assessors are always opposed to the poll tax because it is difficult to collect and makes them unpopular with the tax dodgers. Yet, it must e remembered that this amounts to three quarters of a million dollars per year, and that it all goes to the support of the schools. Wipe this out without making provision for other money to take its place, and the loss to the schools will be embarrassing in the extreme. It will have to be met by raising the taxes on property. It is a popular thing, to abolish the poll tax, but it is well to look before the leap; well to consider carefully what use is made of the money and what will supply its lack; well to find out whether it is really a reform backward or forward.
